Stripe is a simple way to accept payments online. With Stripe you can accept Visa, MasterCard, American Express, Discover, JCB, and Diners Club cards, even Bitcoin, directly on your store.

WHY CHOOSE STRIPE?

Stripe has no setup fees, no monthly fees, no hidden costs: you only get charged when you earn money! Earnings are transferred to your bank account on a 7-day rolling basis.

Stripe also supports the [WooCommerce Subscriptions extension](#) and re-using cards. When a customer pays, they are set up in Stripe as a customer. If they create another order, they can check out using the same card. A massive timesaver for returning customers.

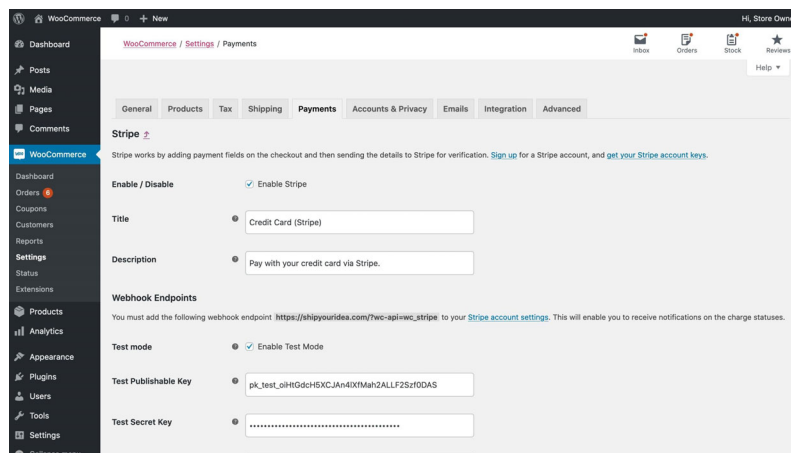

APPLE PAY SUPPORT

WooCommerce Stripe includes [Apple Pay](#) support, which means customers can pay using payment details associated with their Apple ID. Checkout is now just an authorization (Touch ID or Face ID) away on both mobile and desktop. Only supports simple, variable, and Subscription products for now. More support to come.

WEB PAYMENTS API SUPPORT

WooCommerce Stripe includes [Web Payments API](#) support, which means customers can pay using payment details associated to their mobile devices, in browsers supporting the Web Payments API (Chrome for Android, amongst others). Checkout is now just a few taps away on mobile. Only supports simple, variable, and Subscription products for now. More support to come.
